

# Accelicon Technologies, Inc.

- *The Device Modeling Experts:*
  - Model generation
  - Model validation
  - Model Variability Analysis
- Founded 2002
- Over 90 customers
- Growing, profitable

# Accelicon's Solutions

- **MBP** Device-Level SPICE model extraction & generation – Superior productivity, accuracy, usability
- **MQA** Device-Level SPICE model validation, comparison, documentation – Foundry: Improve model quality Fabless: Automate validation process
- **PQA** Evaluate Foundry CVM (variability models) to mitigate layout-effect variability – Improve gate-density, performance, power

# Services

- Advanced Lab
  - Advance model development, measurement
  - Customer services

Probe Station, VNA, IV/CV/switch matrix
