**Additional Requirements:**

If your paper is accepted for publication at this conference, you will also need to adhere to the following requirements:

- IEEE policy requires that you send us a signed Copyright form for each paper. Without copyright form, we **cannot** publish your article. The file will be sent to you once your manuscript has been accepted.
- REMINDER: At least one author per paper must be registered AND attend the conference to present their paper.
- IEEE reserves the right to exclude any accepted paper from distribution after the conference (including, removal from IEEE Xplore) if the accepted paper is not presented at the conference.

**Review Process:**

By submitting a paper to MOS AK India 2019, the authors agree to the review process and understand that papers undergo a peer-review process. Manuscripts will be reviewed by appropriately qualified experts in the field selected by the Technical Program Committee, who will give detailed comments and — if the submission gets accepted — the authors submit a revised ("camera-ready") version that takes into account this feedback.

All papers are reviewed using a single-blind review process: authors declare their names and affiliations in the manuscript for the reviewers to see, but reviewers do not know each other's identities, nor do the authors receive information about who has reviewed their manuscript.

**Dual/Double Submissions:**

By submitting a manuscript to MOS AK India 2019, authors acknowledge that it has not been previously published or accepted for publication in substantially similar form in any peer-reviewed venue with publicly accessible papers, including journals, conferences, workshops, or other peer-reviewed, archival forums. Furthermore, no paper substantially similar in content has been or will be submitted to another peer-reviewed conference or workshop with publicly accessible papers during the review period.
